For example if you bid a \$1,000 on a \$100 lot because you want to be sure to obtain it and the firm has only a mailbid of \$50, we will start bidding for you at \$55 (just 10% over the highest bid received) and if there are no roombidders competing against you, you will obtain the lot for \$55.

Schulman Coin & Mint Inc. has run coin auctions in New York since 1940 and has a very large mailbid following based on the above mentioned system. Join the many satisfied bidders and bid generously.

MARTINIQUE

THE BLACK STAMPEES OF TREASURE ISLAND

This Collection was found by the consignor on the beaches of Martinique when they were dredging off Fort St. Louis and they were spilled on the sand. Since the coins are not oxydized to a degree that would mean that they have been in the water since the time of issue, about 1790, it is believed that only about 1900 A. D. somebody threw them overboard in a tin, and thus they are not so corroded. Probably a disinterested or disgusted collector threw them away. The consignor gathered a large group of children to cover the large area of beach on which these were thrown. THE BLACK STAMPEES ARE NOT THE BLACK DOGGS (See pridmore, pg. 11, 12).
